When the ribbon was cut in 1989 to open the doors to the Ronald McDonald House in Greenville, we had one hope. It was to keep families close to their critically ill or injured child receiving live saving treatment at a nearby medical facility. We imagined a home where no family would have to face the pressure and stress of figuring out where to stay, how to pay for overnight lodging and how to access three meals a day.

Today, 30 years later, we have brought that dream to life by serving nearly 13,000 families and counting. This year was an important year for our House as we celebrated our 30th anniversary over the summer and have completed one full year in operation as a 24-room home for families. It has been a year of significant growth and happy memories as now we have been able to accept every family that needs a place to stay near their sick child. Of course none of this would be possible, without the generosity of our donors, volunteers and community champions like you! Thank you for an amazing 30 years and giving us the hope for another 30 years ahead!

With gratitude,

Marti Spencer, CEO and Executive Director
